

## Micron Technology is Hiring! Position: Test Solutions Engineer

Micron Technology is hiring for the position of Test Solutions Engineer in Gujarat, India. Candidates with a Bachelor's/ Master's Degree are eligible to apply for this position. The complete information, eligibility criteria, and requirements are provided below.

### Job Description:

Company Name	Micron Technology
Position	Test Solutions Engineer
Qualifications	Bachelor's/ Master's Degree
Batch	2021/ 2022/ 2023/ 2024/ 2025
Experience	Freshers
Location	Gujarat, India

### Key Responsibilities:

- Design and develop new test programs for first silicon validation of new product and technology startups, providing critical feedback to improve device quality and performance.
- Develop and maintain test programs for Micron DRAM products to meet customer specifications, support device performance characterization, and analyze customer returns.
- Optimize test programs by implementing efficient testing methods to reduce product test time and manufacturing costs.
- Automate test processes by developing software scripts to enhance work efficiency and accuracy.
- Enhance test coverage to ensure high-quality output and maximize customer satisfaction.
- Collaborate with product and equipment engineering teams to improve overall product yield and develop customized test solutions to maximize Return on Investment (ROI).
- Work closely with test capacity and manufacturing teams to achieve production output targets.
- Develop and monitor process and engineering metrics to ensure the stability, efficiency, and effectiveness of test processes.

### Eligibility Criteria:

- Bachelor's or Master's degree in Electrical Engineering, Electronics Engineering, Computer Engineering, or a related field.

## Preferred Skills:

- Strong programming skills; proficiency in C/C++ is a plus.
- Excellent analytical and problem-solving abilities.
- Strong verbal and written communication skills.
- Understanding of semiconductor device physics is an advantage.
- Familiarity with Unix/Linux environments is preferred.
- Open to applications from fresh graduates.

## About Company

We are an industry leader in innovative memory and storage solutions transforming how the world uses information to enrich life *for all*. With a relentless focus on our customers, technology leadership, and manufacturing and operational excellence, Micron delivers a rich portfolio of high-performance DRAM, NAND, and NOR memory and storage products through our Micron® and Crucial® brands. Every day, the innovations that our people create fuel the data economy, enabling advances in artificial intelligence and 5G applications that unleash opportunities – from the data center to the intelligent edge and across the client and mobile user experience.
